

| <b>ALUMNO</b>                   | <b>Tema: Archivo y Título</b> |   |
|---------------------------------|-------------------------------|---|
| Acosta Reveco, Joaquin          | <b>2.pdf</b>                  | Shear-Flexure Interaction for Structural Walls                |
| Antillo Bastias, David          | <b>7.pdf</b>                  | Nonlinear Analysis of Steel-Concrete Composite Structures...  |
| Caroca Gaete, Jose              | <b>4.pdf</b>                  | BUCKLING MODELING OF REINFORCING BARS WITH IMPERFECTIONS      |
| Espinoza Diez de Medina, Felipe | <b>1.pdf</b>                  | Determination of wire recovery length in steel cables and...  |
| Galleguillos Caro, Tito         | <b>4.pdf</b>                  | BUCKLING MODELING OF REINFORCING BARS WITH IMPERFECTIONS      |
| Lacaze ., Cecile                | <b>5.pdf</b>                  | STRENGTH OF CONCRETE FILLED STEEL BOX COLUMNS...              |
| Mancilla Perez, Andrea          | <b>7.pdf</b>                  | Nonlinear Analysis of Steel-Concrete Composite Structures...  |
| Núñez Cortez, Manuel            | <b>1.pdf</b>                  | Determination of wire recovery length in steel cables and...  |
| Vargas Alvarez, Danilo          | <b>3.pdf</b>                  | Comprehensive Composite Inelastic Fiber Element for Cyclic... |
| Parra, Elizabeth                | <b>5.pdf</b>                  | STRENGTH OF CONCRETE FILLED STEEL BOX COLUMNS...              |
| Grumberg, Claudio               | <b>2.pdf</b>                  | Shear-Flexure Interaction for Structural Walls                |
| Fredes, Zocimo                  | <b>6.pdf</b>                  | ANALYTICAL MODEL FOR PREDICTING SHEAR STRENGTH...             |
